Neither prior art of record nor references teach a seal assembly in a adapter assembly for a bicycle bottom bracket comprising at least a support being disposed within the adapter member and spaced from the adapter member by an outer seal, and an inner seal disposed on the support laterally opposite to the outer seal, wherein the seals prevent contaminants from entering past the seals into the adapter member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
